Education

Anil Neerukonda Institute of Technology and Sciences (ANITS) Oct 2022 – Present
B.Tech in CSE with AI & ML, CGPA: 9.45 Visakhapatnam

Technical Skills

Programming Languages: Python, Java, C, C++, JavaScript
Developer Tools: GitHub, VS Code, Postman, Google Looker Studio
Web Frameworks & Databases: HTML, CSS, Bootstrap, Node.js, Express.js, React.js, Tailwind CSS, REST APIs, MySQL, PostgreSQL, MongoDB
Domains: Machine Learning, Deep Learning, Natural Language Processing, Cloud Computing
Relevant Coursework: Object-Oriented Software Engineering (OOSE), Operating Systems, Computer Networks, Database Management Systems, Object-Oriented Programming (OOP), Machine Learning for Cybersecurity (MLCS)

Experience

RPA Developer Intern — Edumoon Technologies, Visakhapatnam May 2024 – June 2024

- Automation workflows built and tested using Automation 360, leading to a 25% increase in operational efficiency for key business processes.
- Automated crucial Excel and Web-based tasks, demonstrating a methodical approach to improving workflow reliability.
- Independently delivered reliable automation solutions, contributing to a 15% reduction in manual effort and ensuring continuous improvement.

Projects

Tech-Solutions-EMS — React.js, Node.js, Express.js, Mongo DB [GitHub] [🔗](#) — [Live] [🔗](#)

- Engineered a full-stack Employee Management System (EMS) using MERN stack with custom REST APIs.
- Implemented secure role-based access for employee data, performance reviews, payroll, and leave requests.
- Designed responsive UI with React.js and Tailwind CSS for streamlined HR workflows.

Smart Travel Planner — ML-based Travel App with Streamlit [GitHub] [🔗](#) — [Live] [🔗](#)

- Developed a Streamlit app predicting optimal travel conditions using real-time data from 22 cities.
- Trained KNN classifier for accurate travel recommendations using data from the Open-Meteo Weather API.
- Created a user-friendly interface for seamless travel insights and instant interaction.

Intra-School Event Management System — Desktop App with Tkinter & PostgreSQL [GitHub] [🔗](#)

- Built Tkinter-based desktop app for event creation, registration, and result tracking.
- Structured OOP structure with PostgreSQL for modular, scalable data handling.
- Implemented separate dashboards for students, teachers, and admin with conflict-free event scheduling.

Achievements

- Reached the semifinals of the Amaravati Quantum Valley Hackathon 2025 by working on developing a model based on Variational Quantum Classifier for FTSE Market Stock Prediction.
- Secured 3rd place in the 2-day ML Hackathon at Inventum 2K25, ANITS (Smart Travel Planner).
- Solved 600+ coding problems on LeetCode [🔗](#), GeeksforGeeks [🔗](#), and HackerRank [🔗](#).
- Selected as an intern for the Infosys Springboard Virtual Internship 6.0.

Certifications

- Cloud Computing (12 Weeks)** – NPTEL, IIT Kharagpur (Top 5% – Elite Gold) [Link] [🔗](#)
- Introduction to Large Language Models (LLMs) (12 Weeks)** – NPTEL, IIT Madras [Link] [🔗](#)
- Natural Language Processing** – Coursera, DeepLearning.AI [Link] [🔗](#)
- CS50's Introduction to Programming with Python** – edX [Link] [🔗](#)
- CS50's Introduction to Artificial Intelligence with Python** – edX [Link] [🔗](#)
- The Full-Stack Web Development Bootcamp** – Udemy [Link] [🔗](#)
